Candidate's Office:

District Number:

Toastmasters member since:

Education:

Toastmasters offices held and terms of service:

Toastmasters honors and recognition:

Relevant work experience and how it relates to Toastmasters and your role as a District leader:

As Lead Security Engineer, I am required to work with a variety of teams within the company to ensure the software those teams develop is secure. While I do not have authority to force many of these teams to act, I am required to use servant leadership skills to enact change. This is similar to the leadership style that I find effective in Toastmasters District leadership. Toastmasters District leaders often don't have significant authority, but must rely on their servant leadership skills to enact change.

What experience do you have in strategic planning?

**In my professional career, I work on developing our application security program with the goal of improving the security of our software. I evaluate a variety of solutions and plan for the implementation of appropriate technical and procedural controls to achieve this goal.
In Toastmasters, I have developed both club and area success plans which have led to a Perfect 10 club and a President's Distinguished area.**

What experience do you have in the area of finance?

**Professionally, I have written programs to perform financial calculations and generate reports and predictions with data from millions of records. I have experience using the NetSuite accounting software and the NetSuite API.
In Toastmasters, I have served as the club Treasurer and led new initiatives such as moving our member payment process to PayPal so we could easily collect payment even when we were not meeting in-person due to COVID.**

What experience do you have in developing procedures?

What lessons did you learn from previous leadership positions?

Why do you want to serve as a District leader?

In your opinion, what are the District mission's major objectives and how would you work to achieve them?
